

QUIZ

Rugeley & Armitage Camera Club Newsletter

28th November 2020

www.rugeleyandarmitagecameraclub.com

I am sure members would like to join me in thanking Geoff Setterfield the Programme Secretary for the excellent speakers he has arranged this year. Last Monday evening Dr. Michael Leach did not disappoint with his charismatic style and unique wildlife photo captures.

The last two speakers were always trying to photograph something different in the animals behaviour, that had not been photographed before. Michael said he could be stuck in a hide for weeks on end without even seeing the animal he is trying to photograph. I am sure his patience and perseverance has allowed him to achieve his goal of becoming a top wildlife photographer.

Dave Hanmer has sent me the following article;

Following last week's excellent presentation by Dr Michael Leach, now that it appears that Zoom Meetings are going to be with us for the foreseeable future, rather than view them on your computer, laptop or tablet, why not use your nice big television screen instead?

All you need is a standard HDMI Cable (tablets will need a different HDMI cable). You can get one from Poundland for.... £1.00 or a bit more from places like Home Bargains or Wilko etc. Just plug one end into the HDMI socket on your computer or laptop and the other end into a spare HDMI socket on the back of the television. Hey presto. What is on the computer screen is now on the television as well.

To ensure sound comes out of the television speaker, when you join the Zoom meeting click on the box 'Test Computer Audio'. A drop-down box should appear which lets you select either computer or television. Select television.

Monday 30th November Members Evening

MCPF Travelling Portfolio Zoom Presentation 19.30

This presentation of all the PDIs and Prints from the exhibition held earlier in the year. Look out for our club members images and work out which of your images you can enter into the next competition. Dave Hanmer's idea of putting the images on the TV or large monitor will work excellently with this presentation.

Message from our Chairperson Carole Perry

Dear members, I hope everyone is keeping as well as can be expected, these past months have been very difficult for everyone, I'm sure you have missed the camera club as much as I have, the committee have still met (on zoom) to try to plan ahead as far as we are allowed and thanks go to Andrea & Linda for organising the weekly zoom meetings for speakers & judges for the competitions, although zoom is a useful tool, it's just that, a tool that can be used & adapted for this period of time, it will never replace us meeting at Lea Hall, this time has proved to me (not that I didn't already know it) that our camera club isn't just about what we learn, although this plays a big part, it's the socialising that is very important, getting out of the house for a short time, we all need time for our hobby, to meet like minded people, being able to talk to other members who are always willing to share their knowledge, being able to view prints instead of a jpeg images on a screen,

We will get back to some sort of normal, I'm not sure it will ever be the same, who knows, different can still be good, but one day in the not too distant future we will be allowed to meet again, It will be wonderful to see you all again.

Do try to join us in a zoom meeting, all you have to do is, make yourself a cup of tea or coffee, click on the link that is given in an email and sit back & enjoy the excellent speakers and judges in the comfort of your own home.

Take great care of yourselves, if there is anything you want to talk about either ring me or send an email.

Miss you all

Carole

Monday 7th December George Lamb Trophy

The George Lamb Trophy Competition. Projected digital images.

Subject "Landscapes" Judge Howard Bagshaw 19.30pm

Members will receive an invite to join the Zoom presentation

THE 1ST PHOTOGRAPHY QUIZ

Hello everyone, hoping you are fit and well under the present climate. Probably like myself, you are all missing our get together on Monday nights, particularly the social side.

Just to let you all know that I have volunteered to produce a quiz for members of our camera club which will be published monthly in the newsletter, which Carole, David and Graham have agreed to and are very excited about.

Further details will be included in the coming newsletters.

I will provide 10-15 questions on the subject of photography, but will also occasionally include a general knowledge quiz for variety, a tie breaker question will be added, if following this there is more than one correct submission, names will be put into a hat and one drawn out as the winner this member will then receive a gift voucher from the camera club.

All entries should be emailed to me harrison290@talktalk.net and should arrive within 14 days of the newsletter being released.

The winner and answers to the quiz will then be published in the newsletter.

I am more than happy to be contributing the quiz and hope you will all have a go to ensure its success.

All feedback will be noted and received with thanks.

Roy Harrison

Tie Breaker Question

While President Obama was in office, he turned down Donald Trump's offer to do what?

QUIZ TIME

QUIZ

Members only can enter this competition.

All entries to be sent by Friday 11th December

Results and prize winner in the newsletter dated 12th December. Thanks Roy for doing this for the members.

How about a special Christmas quiz?

I hope members support Roy with this addition to the Newsletter, as it makes my job much easier.

Members told me they really enjoyed the International Garden Photography and I thought you would like something nearer to home.. The local open gardens could not go ahead as normal and it was decided to do a virtual one instead. Hope this helps in the lockdown.

Hi Everyone, I hope you are all well, I just wanted to give you all an update on Chappers Photography workshops & activities;

Winter Solstice Workshop

As we come out of a National lockdown and into tier 3 things remain challenging! However, six people can still meet outdoors, so my plan is to run my Winter solstice photography workshop on Monday 21st December with a maximum of just 5 participants. This will be a landscape/sunset workshop and will take place on Cannock Chase starting at around 2.30pm. Please email me if you would like to join – at the time of writing there are two spaces available.

2021 Bookings now live!

I am pleased that the 2021 programme is now taking shape and the following events are now available to book;

Saturday 6th March – Taken in time, Moira Furnace Museum and Country Park – event organised by Up an at em History so use link below for bookings;
