

Rugeley & Armitage Camera Club Newsletter

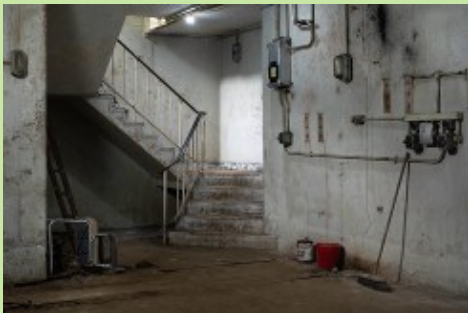

6th April, 2026.

Affiliated to the Photographic Alliance of Great Britain, through the Midland Counties Photographic Federation

Last week we welcomed a new speaker to our club, Martine Hamilton Knight, who is an architectural photographer, as well as being a senior lecturer at Nottingham Trent University. Her photography was very creative and involved a lot of planning and research when she has been given a paid assignment, she has a very short space of time to plan, set up and carry out the photo shoot.

It's was quite interesting to see how a professional photographer sees an image against club photography and a judge. Martine also likes to have people in her architectural shots, they give perspective along with "showing" what the building is for.

Martine was an excellent speaker and engaged the members, even those of us who think architecture is "just a building".

Even in her personal photography she photographs buildings.

This is the first image Martine showed us, but did not have the cyclists. A woman viewing this at an exhibition thought the seats were egg cups.*
